***Six Nations of the Grand River
Development Corporation Launches Tiny
Homes Pilot Project***

For Immediate Release: August 14, 2023 – Six Nations of the Grand River Development Corporation (SNGRDC) is pleased to announce the launch of the tiny homes pilot project.

The project, which is being referred to as ‘Six Nations Tiny Homes’ during the pilot phase, is being undertaken by SNGRDC’s Project Management Team and led by Six Nations community members Robert ‘Dude’ Bomberry, Kali Hill, and Spring Sault.

SNGRDC has launched Six Nations Tiny Homes to help address longstanding issues related to housing on the Six Nations territory as identified in the 2019 Community Plan.

Community members currently face many challenges related to housing that prevent them from owning a home on the territory, including lack of housing availability and affordability, poor quality housing, and more.

Six Nations Tiny Homes seeks to provide an innovative solution to these problems. Through this project, SNGRDC will offer affordable, safe, secure, and accessible housing to the community we serve. SNGRDC is thrilled the tiny homes are being designed and built by Six Nations community members for their own community.

Two model homes are currently in development: a 480 square foot, 1-bedroom model; and a 960 square foot, 3-bedroom model. The tiny homes are designed to be purchased and placed on the buyer’s land.

Six Nations community members are invited to view the model homes at an Open House on August 16, 2023, from 2:00pm-6:00pm at Oneida Business Park. The goal of the Open House is to showcase the homes to gauge interest from the Six Nations community before a final decision is made to formally launch the program.

About Six Nations of the Grand River Development Corporation:

Six Nations of the Grand River Development Corporation (SNGRDC) manages the Six Nations' economic interests in 20 renewable energy projects and numerous economic development opportunities in and around the Six Nations territory. SNGRDC's current green energy portfolio is capable of producing over 1300 MW of renewable energy through its direct or indirect involvement in seven solar and 13 wind projects. SNGRDC is located on the Six Nations Reserve and employs an average of 110 employees through Nation Enterprise or the administration of Economic Interests projects.
