– FOR IMMEDIATE RELEASE –

Hagersville Battery Energy Storage Park honoured by CanREA for the Innovative Canadian Clean Power Project of the Year award

Toronto (Canada), October 7, 2025 – Boralex inc. (“Boralex” or the “Company”) (TSX: BLX) and its partner, Six Nations of the Grand River Development Corporation (“SNGRDC”) are proud to announce that the *Hagersville Battery Energy Storage Park* has been awarded the Innovative Canadian Clean Power Project of the Year award by the Canadian Renewable Energy Association (“CanREA”).

The award was presented at the CanREA Gala, at the Electricity Transformation Canada Annual Conference & Exhibition in Toronto. This inaugural awards program celebrates projects and organizations that exemplify innovation, leadership, and a strong commitment to advancing Canada’s renewable energy and energy storage industries.

Located in Haldimand County, Ontario, the [Hagersville Battery Energy Storage Park](#) is set to become Canada’s largest battery storage facility upon completion, providing 300 MW / 1.2 GWh of flexible capacity to the provincial grid. The project sets a new benchmark for large-scale energy storage and demonstrates the power of equitable Indigenous partnership and adaptive land reuse.

“We are deeply grateful to CanREA for this recognition, which underscores the power of meaningful collaboration in driving Canada’s clean energy future,” said Matt Jamieson, President and CEO of Six Nations of the Grand River Development Corporation (SNGRDC). “SNGRDC and Boralex recognized the potential of battery energy storage early on and have harnessed it to deliver clean, reliable and lasting benefits to Ontario’s energy grid. The Hagersville Battery Project offers only a glimpse of what is possible. This award affirms SNGRDC and Boralex as leaders in this field and will help catalyze new opportunities to expand this technology, keeping us at the forefront of innovation in 2026 and beyond.”

Boralex President and CEO Patrick Decostre agreed: “We’re honoured that the Hagersville Battery Energy Storage Park has been recognized by CanREA with the Innovative Canadian Clean Power Project of the Year award. This award reflects the strength of our long-standing partnership with the Six Nations of the Grand River Development Corporation and our shared commitment to advancing low-carbon, reliable and inclusive energy solutions. Together, we’re demonstrating how collaboration and innovation can accelerate Canada’s energy objectives while delivering lasting benefits to both local communities and the grid.”

Beyond its technical achievements, the project is a model of inclusive development. SNGRDC’s leadership ensures that Indigenous communities are full participants in—and beneficiaries of—the clean energy transition. The project has created local jobs, generated long-term revenues for the Six Nations community, and adapted its infrastructure plans in response to public feedback, reinforcing trust and transparency.

The Hagersville Battery Energy Storage Park exemplifies how scale, innovation, and inclusion can come together to power a more resilient and equitable energy future for Canada.

About Boralex

At Boralex, we have been providing affordable renewable energy accessible to everyone for over 35 years. As a leader in the Canadian market and France's largest independent producer of onshore wind power, we also have facilities in the United States and development projects in the United Kingdom. Over the past five years, our installed capacity has increased by greater than 50% to over 3.3 GW. We are developing a portfolio of projects in development and construction of 8.2 GW in wind, solar and storage projects, guided by our values and our corporate social responsibility (CSR) approach. Recognized as Best Corporate Citizen in Canada by Corporate Knights, Boralex is actively participating in the fight against global warming. Thanks to our fearlessness, our discipline, our expertise and our diversity, we continue to be an industry leader. Boralex's shares are listed on the Toronto Stock Exchange under the ticker symbol BLX.
